| | | <ul style="list-style-type: none">• Facility in Nebraska (AltEn) has been processing treated seed corn into ethanol, resulting in wet cake believed to have potential environmental concern due to significant levels of several pesticides. As of July 2019, the wet cake was no longer permitted by NDA as a soil conditioner. Program has reached out to OPP and plan to reach out to NDEE. Unclear whether they are looking for a joint workgroup effort or have EPA provide recommendations. Following meeting with NDEE, program will follow-up | |
